Instrument driver

for GSM

Please use the CMD55 driver for GSM

for DECT

Please use the CMD60 driver for DECT

Additional Help

Use this drivers as a standard LabVIEW driver

In order to use this driver as a standard LabVIEW driver, please copy the contents of the ~\VXI\np\GWinNt\rscmu55 or ~\VXI\np\GWinNt\rscmu60 directory into your LabVIEW directory (~\LabVIEW\instr.lib\rscmu55\ or ~\LabVIEW\instr.lib\rscmu60\). The driver will then be directly accessible from the LabVIEW Instrument Driver function palette menu.

Additional Help for LabVIEW Version 6 and higher

In addition, the instrument driver documentation is included in compressed HTML format (Windows CHM help file) stored together with the LabVIEW driver sources.

Each VI's help is linked to the section in the "CHM" file that describes all the features of the VI.

- **LabVIEW 6.1 and higher** an additional help topic can be accessed directly by pressing "[Click here for more help](#)" in the Context Help
- For **LabVIEW 6.0** an additional help topic can also be accessed by pressing "[Click here for more help](#)" in the Context Help which opens the additional help start page.
