Scope Rings

Ruger scope rings are packaged individually, allowing you to purchase only the ring needed, or mix and match, without the added expense of purchasing two rings at a time. For example, the Ruger M77® Hawkeye® rifles are shipped from the factory with a #4 front ring and a #5 rear ring, which translates to a medium height scope mount. If you desire a high scope mount, you only need to mount the #5 ring on the front scope mount, and purchase one new #6 ring to mount on the rear scope mount.
