Give complete "SERVICE PART No" for parts order or servicing, it is shown on the rating sheet on the cabinet back of the TV set.

### Note

This TV receiver will not work properly in foreign countries where the television transmission system and power source differ from the design specifications. Refer to the specifications for the design specifications.

## 1. Safety instructions

Read this page before doing any operation of adjustment, maintenance or repair the TV set described.

Only skilled personnel of Sanyo Technical Service should do the adjustment, maintenance or repair of TV set.

## 2. WARNING

For the correct and safe use of the TV set, it is essential that the service personnel follow the process of safety generally accepted and the safety precautions specified in this manual.

An isolation transformer should be connected in the power line between the receiver and the AC line when a service is performed on the primary side of the converter transformer of the set.

The deflection heat sink is connected to -12V.

## 3. Precaution against X-Rays

The primary source of X-RADIATION in the television receiver is the picture tube. The picture tube is specially constructed to limit X-RADIATION emissions. For continued X-RADIATION protection, the replacement tube must be the same type as the original including suffix letter. Excessive high voltage may produce potentially hazardous X-RADIATION. To avoid such hazards, the high voltage must be maintained within specified limit. If high voltage exceeds specified limits, take necessary corrective action. Follow the instructions carefully for +B1 volt power supply adjustment, and high voltage adjustment to maintain the high voltage within the specified limits.

### COMPLIANCE TO STANDARDS

All of those marked with \* or  $\triangle$  must be  
Replaced with original parts

**WARNING!** This TV set contains components which are particularly sensitive to static electricity (ESD). It is recommended that all due precaution be taken handling integrated circuits and semiconductors.

## 4. Recommendations to protect our environment

**Stand-by mode:** In order to save energy and to maintain an optimum picture quality, it is advisable to switch off the TV using the ON/OFF button located at the front of TV set.

**Used batteries:** The batteries in the remote control of these models do not contain mercury. However, SANYO recommends that you do not dispose of used batteries in domestic refuse. Please, contact your dealer or your local authorities for information regarding the disposal of used batteries or your nearest collection point.

**Recommendation about the end-of-life:** These SANYO TV sets have been designed and manufactured using high quality materials which can be recycled and reused. In the future, when the life cycle of these sets come to an end, specialised companies can disassemble it and reuse certain materials. This reduces the impact of waste in our environment. Please, contact with your local authorities for information regarding the disposal of your set when the time arrives. Help us to conserve the environment we live in!

## 5. TECHNICAL CHARACTERISTICS.

<b>Cathode-ray tubes</b>	In-Line, gun Type. Black Matrix. 29" (68 cm) True Flat, Invar Plus mask.
<b>Tuning-system</b>	Voltage synthesis, 100 programs in non-volatile memory, AFT, automatic, semiautomatic and manual channel-search.
<b>Reception channels</b>	Band I, channels 2-4 (VHF)=E2-E4 Cable channels S1-S10 Hyperband channels S21-S41 Band III, channels 5-12 (VHF)=E5-E12 Band IV-V, channels 21-69 (UHF)=E21-E69
<b>Reception system</b>	B/G, D/K, I, L, L' system
<b>Colour system</b>	PAL, SECAM, (NTSC 4.43, NTSC 3,58) ONLY AV
<b>Program selection</b>	Sequential selection from the controls on the set. Direct selection to any program from the remote-control device.
<b>Audio</b>	Power-rating 2x8,9 W rms. (10% distortion)
<b>Speakers</b>	2 of 8 Ω.
<b>Aerial</b>	External aerial sockets 75 Ωs. IEC
<b>Jack for headphones</b>	Stereo jack 3,5mm. (with independent control)
<b>Clock and alarm Function</b>	
<b>Timer Function</b>	Switch on and off of CTV programmable in real time.
<b>AV connectors</b>	1 Scart connector 21 pin CENELEC standard AV, RGB and S_Video. 1 Scart connector 21 pin CENELEC standard AV, RGB 1 RCA Video input (frontal) 2 RCA Audio input (frontal)
<b>Power supply</b>	220 – 240 VAC 50Hz
<b>Consumption</b>	83 W (IEC 107-1) 2,1 W (Stand-by  )
<b>CTI</b>	Improves color transitions
<b>Comb Filter</b>	Improves video bandwidth and reduces crosscolor effect.
<b>Stereo/Dual Systems</b>	NICAM and Stereo/Dual (A2)
<b>Sound Effects</b>	Pseudo Stereo. Bass boost. Actv. 3D surround, BBE, spatial stereo
<b>Auto volume</b>	
<b>Clock function</b>	
<b>Alarm function</b>	Programmable over 24 hours
<b>Timer function</b>	Switch on and off are programmable over 24 hours.
<b>TXT</b>	1,5 Flot and list. 10 Teletext pages memory
<b>Hotel Mode</b>	It can be programmed in Hotel Mode and Rental Hotel Mode
<b>Remote ON/OFF</b>	Tis TV can be switched ON/OFF Through the blue scart connector.
<b>Options by means of Technical Service:</b>	
SECAM, NTSC-M	

## 6. Safety

It fulfils the safety requirements established in the regulation:  
EN 60065:98

## 7. EMC (Electromagnetic Compatibility)

It fulfils the EMC requirements established in the regulation:  
EN 55013:1990/A12:1993/A13:1996/A14:1999  
EN 55020:1994/A11:1996/A13:1999/A14:1999  
EN 61000-3-2:1995+A1:19998+A2:98/A14:2000  
EN 61000-3-3:1995

## 8. Factory special mode

The factory mode is a special TV working mode intended to help in the manufacturing process and it is identified on the screen with the message "FAC". This mode is never suited for customer use.

The main differences respect to normal mode are:

- 1- The standby mode is always disabled.
- 2- The Blue-back (no sync. signal present) is disabled.
- 3- The customer adjustments ( volume, contrast ...) work faster.
- 4- The timer off works but it does not change to Stand-by mode.
- 5- Change of programs and TV/AV swithing faster. Cancelled mute.

In case of finding the TV set in Factory mode, it must be taken out of this state. To do so, enter the clock setting menu on the customer OSD and then exit.

### 9. Automatic channel search reactivating

In order to reset the initial automatic channel search function, start a channel search in AUTO mode from the user tuning menu and switch-off the TV set before any station is found. The next time the TV set is switched on, it will start an automatic channel-search.

### 10. Service Menu

The service menu allows to access to de relational parameters with the TV setting.

The service menu is accessed by holding down the front key (vol-) and simultaneously pressing the teletext green key from the remote control. An very detaill explication is in the Service Manual of chassis 2114 (EB5-C).

### 11. CONNECTED DOCUMENTS.

This Service Manual provides the particular information of the model CE29FFV1-F and it is complemented with:

1. Service Manual of the CHASIS 2114 (EB5-C).
2. Service Electrical scheme of the model CE29FFV1.
3. Instruction manual.

### 12. MOUNTED CIRCUITS CODES.

NOTA DE CUMPLIMIENTO DE NORMAS

Quando se sustituye cualquier componente del receptor TV hay que consultar la lista de componentes del Manual de Servicio, y todos los componentes que están indicados con \* o ! deben ser sustituidos por recambios originales SANYO.

- ATENCIÓN este televisor contiene elementos especialmente sensibles a la electricidad estática (ESD). Recomendamos que se realice la manipulación de circuitos integrados y semiconductores con las debidas precauciones.
- NOTAS:
- Los valores de las resistencias están expresados en ohms K=1.000, M=1.000.000.
  - Los valores de los condensadores menores de 1 están expresados en uF, los valores mayores de 1 están expresados en pF.
  - Toda la información de este esquema es correcta en el inicio de la serie: SANYO se reserva el derecho de modificarlo para mantener su política de mejora continua.
  - Las medidas de tensiones y oscilogramas se han efectuado con el TV sintonizado en el canal-21, ajustes normalizados e imagen con carta de barras de color.

COMPLIANCE TO STANDARDS

When any TV receptor component is substituted, it is necessary to check the list of components in the Service Manual and all of those marked with \* or ! must be replaced with original spare SANYO parts.

- WARNING! This TV set contains components that are particularly sensitive to static electricity (ESD). It is recommended that all due precaution be taken particularly sensitive handling integrated circuits and semiconductors.
- NOTES:
- All resistor values are expressed in Ohm K=1000, M=1000000.
  - Capacitor values lower than 1 are expressed in uF and values higher than 1 are expressed in pF.
  - The information in this scheme is correct at the beginning of the series; SANYO reserves the right to modify this in accordance with on-going product improvement policy.
  - The measurements of voltages and oscillograms were carried out with a TV set tuned to channel-21, normal adjustments and colour bar pattern.

NOTA SUL RISPETTO DELLE NORME

Quando si sostituisce qualsiasi componente del ricevitore TV si deve consultare l'elenco dei componenti nel Manuale per la Manutenzione. Tutti i componenti contrassegnati con \* o ! devono essere sostituiti con ricambi originali SANYO.

- ATTENZIONE! Questo televisore contiene elementi specialmente sensibili all'elettricità statica (ESD). Consigliamo di realizzare gli interventi sui circuiti integrati e sui semiconduttori con le dovute precauzioni.
- NOTE:
- Tutti i valori delle resistenze sono in OHM, K=1.000, M=1.000.000.
  - I valori di capacità indicati con un numero minori di 1 sono in uF maggiori di 1 sono in pF.
  - Tutte le informazioni di questo schema sono corrette all'inizio della serie. Seguendo la propria politica di continuo miglioramento dei propri prodotti, la SANYO si riserva il diritto di apportare modifiche senza preavviso.
  - Le misure di tensione e gli oscillogrammi sono stati effettuati con la TV sintonizzata sul canale 21, regolazioni normalizzate e immagine del monoscopio.
