SHARP AR-337 IMAGER™
ADVANCED WORKGROUP DIGITAL DOCUMENT SYSTEM

The Sharp AR-337 Imager is a powerful, flexible document management solution that will improve the way your busy workgroup or office works.

Highly efficient and productive, the Sharp AR-337 combines the performance of a digital copier, a workgroup printer and a high-speed network scanner. Sharp software adds even more functionality, right from your desktop PC. Offering quick 33 ppm performance, this advanced versatile document management solution will handle all your copying, printing, finishing and scanning needs.

iMAGER™
Advanced Workgroup System

Consistent image quality– copy after copy...

The high-performance laser engine of the AR-337 Imager produces copies with a crisp 600 dpi resolution. Reproductions of photographs, illustrations and graphics are richly detailed with the Imager's 256 shades of gray. Your documents never looked better!

Improve productivity with "scan once, print many"

You will notice the digital difference immediately with the Imager's "scan once, print many" technology. Now there's no need to stand and wait for your documents. The Imager digitally scans your originals in one pass and gives them right back to you enabling you to focus on other business while the Imager quickly enhances office productivity.

Advanced digital performance that goes the distance

The Sharp AR-337 Imager offers a productive 33 ppm to get the job done faster. With the choice of two network print controllers, you *also* have a 33 ppm 1200 dpi-quality network laser printer. And

with the choice of two network scan servers, you can scan documents to your e-mail, desktop or to file. With up to 5,050 sheets of online paper and professional finishing capabilities you'll have all the power you need.

Advanced finishing capabilities made simple

Options at your fingertips! With the AR-337 Imager, choose from two optional finishers to easily assemble and deliver your documents. Collating, sorting and stapling are all automatically completed so all you have to do is pick up your finished sets. You can even access these professional finishing functions right from your desktop PC—putting productivity right at your fingertips.
High-speed tandem copying & printing

For a lightning-fast output rate of up to 66 pages per minute, you can easily connect two AR-337 Imagers together for tandem copying and printing. Just feed the originals into one Imager, and the documents will automatically run on both. Tandem printing is also a snap...right from your desktop PC.

Expert handling of confidential documents

The **Confidential Print** function prohibits printing of designated documents until a Personal ID number is entered in both the print window and on the Imager's LCD panel.

The optional **Hard Disk Erase Data Security Kit** turns the Imager into a secure system for printing and copying of confidential documents. With two simple key functions, "Auto Clear" and "Clear All Data", users can avoid confidential documents ending up in the wrong person's hands.

AR-337

Top: Touch the pictures on the LCD screen to make a pamphlet, staple and sort, or to add a text stamp.

Middle Left: Copy jobs are delivered to one tray, print jobs to another. Multiple-page sets are already collated, stapled, and stacked.

Middle Right: Total paper capacity is 5,050 sheets. User-adjustable front-loading drawers hold popular paper sizes from statement to ledger.

Bottom Left: Printer Administration/ Monitoring provides a simple application for monitoring network printers from your desktop.

Bottom Right: SharpDesk™ software features include scanning, OCR, and more.

The Sharp AR-337 Imager is an advanced workgroup digital document system that provides high-performance copying, laser network printing, finishing, and network scanning capabilities in a single, user-friendly system.
