

MX-2300N MX-2700N

Advanced Color Document Systems

Sharp's new MX series color multifunction document systems are truly a departure from the ordinary. With an advanced scalable design, the new MX-2300N and MX-2700N offer all of the features you expect from a robust B&W MFP with the added benefit of cost-effective color. The MX series combine brilliant color imaging with advanced functionality at a surprisingly low total cost of ownership. Now, users can save time and money by producing professional color documents in-house with breathtaking image quality, while also watching the bottom line.

Sharp's Newest Features

- Powerful 600 MHz true multitasking color document system
- Advanced Image Stabilization provides high quality images page after page
- Industry leading ImageSEND function scans documents to USB devices, network folders, email and more
- Network ready PCL6/PCL5c printing system with direct print function and available PS3 emulation
- Large paper capacity up to 5,600 sheets
- Super G3 fax option with PC fax and Inbound routing
- Supports Sharp's award winning multi-level document and MFP security suite
- Advanced web-based device management with on-board user manuals

The power and flexibility you need

With state-of-the-art color engine technology, the MX series can help your business work smarter, not harder. The MX series utilize a powerful **600 MHz true multi-tasking** controller that can easily process complicated color or B&W print jobs, even while documents are being scanned. But that's just the beginning, with a 100-sheet reversing document feeder, automatic duplexing and electronic sorting with offset stacking, you'll complete even large jobs in a snap. With Sharp's large customizable touch-screen display, operating the MX is simple and easy.

Reliability that will keep up with your business

The new MX workgroup document systems are designed to provide exceptional performance and productivity day after day! With copy/print speeds up to 23 ppm and 27 ppm respectively (in both color or B&W), you will have your jobs finished with time to spare. A total on-line **paper capacity of up to 5,600 sheets** means that the MX is ready when you are.

Best-in-class image quality

With Sharp's micro-fine toner technology and **Advanced Image Stabilization**, the new MX series offer enhanced image definition and consistent density for **beautiful output page after page.** The MX series also monitors ambient conditions during the imaging process and ensures optimum quality and color balance. The results are documents with crisp, clear images and dazzling high quality colors.

An easy-to-use, low maintenance color document system that makes sense

The new MX-2300N and MX-2700N are designed to accommodate both large and small office environments. With a compact wingless design, the footprint of each base model is less than 24" x 27". Convenient, front-loading paper drawers and easy-to-change toner cartridges make maintaining the MX series simple and uncomplicated. Our new long-life consumable parts and supplies minimize service intervals and down time, resulting in lower operating costs.

And to make managing all of the advanced features of your MX model simple and easy, ask your Authorized Sharp dealer about **MY Sharp.** This dedicated customer training website is customized to your MX model and allows you to locate resources and find information specific to your configuration, truly helping you maximize your MFP investment.
