

SHARP®

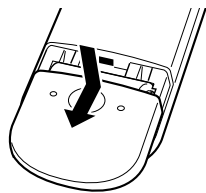

Quick Start Guide

LC-12A2E

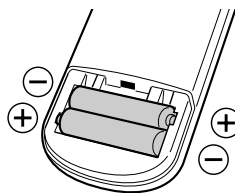

Batteries for Remote Control

- 1** Open the battery cover.

Slide the cover while pressing down.

- 2** Insert batteries (two size-AAA batteries, supplied with the product).

Position the positive and negative ends of the batteries as indicated.

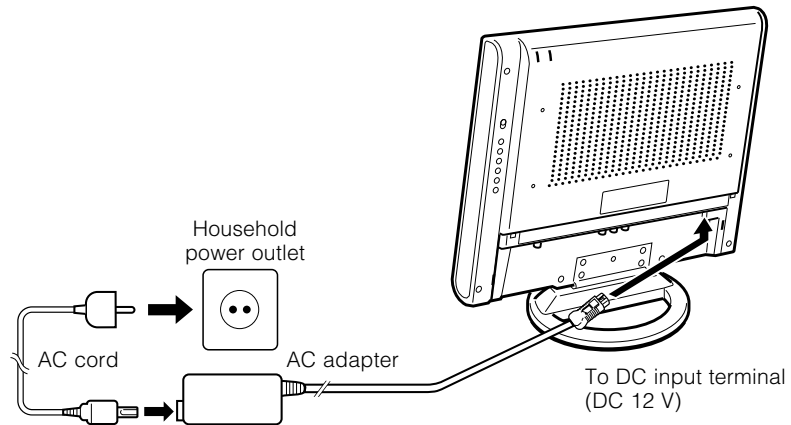

- 3** Close the cover.

If problems persist, contact the SHARP Help Line (office hours) on tel: 0990-274277 and/or WEB-SITE: www.sharp.co.uk/support

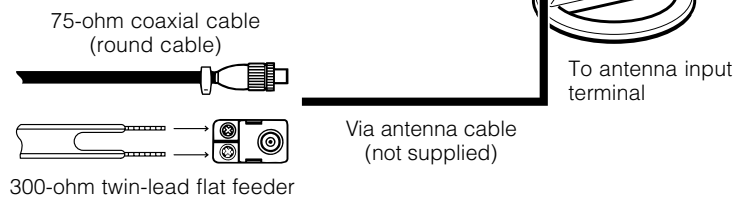

Power Connection

Antenna Connection

- 1) If your outdoor antenna uses a 75-ohm coaxial cable, change this for a new standard DIN45325 (IEC169-2) plug.
- 2) If your outdoor antenna uses a 300-ohm twin-lead flat feeder, change this for a 300-ohm to 75-ohm impedance converter.

Presetting the Channels (AUTO)

This automatically tunes in and presets all receivable TV stations. Make sure the antenna cable is properly connected.

Rear control panel
of main unit

- 1 Press **MENU** on the main unit for more than 2 seconds.
The AUTO mode screen appears.

```

AUTO( 1 )
VHF      1
43.25MHz
  
```

- 2 Press **VOL (-)** on the main unit.
All the TV stations in your area that can be received by the LCD TV set are automatically preset between channels 1 to 99.
- 3 The screen shows whatever is on channel 1 when fully automatic channel preset is finished.

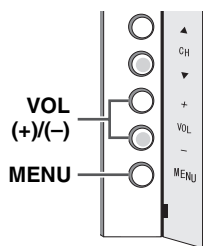

```

1
PAL
I
  
```

Presetting the Channels (MANUAL)

■ Setting a channel number for desired TV station

Rear control panel
of main unit

- 1 Press **MENU** on the main unit for more than 2 seconds.
The AUTO mode screen appears.
- 2 Press **MENU** until the MANUAL mode screen appears.

```

MANUAL( 1 )
VHF      1
48.25MHz
  
```

Web-site: www.sharp.co.uk/support Help Line (office hours only): 0990-274277

Presetting the Channels (MANUAL) (Continued)

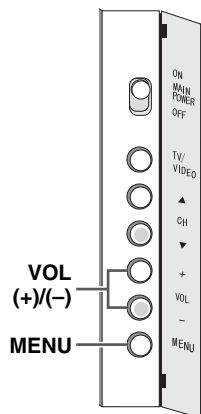

- 3 Select the channel number with **CHANNEL SELECT** or **CH (▲)/(▼)**.

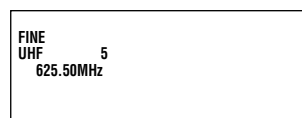

- 4 Press **VOL (+)/(-)** to locate the station you want to preset to the channel.
A search is initiated and when a TV signal is received during the search, the search stops.
- 5 Repeat steps 3 and 4 above to preset the channel numbers for other stations.
- 6 Press **MENU** until the normal screen appears.

■ In a weak reception area, or under bad reception conditions

Rear control panel of main unit

- 1 Press **MENU** on the main unit for more than 2 seconds.
The AUTO mode screen appears.
- 2 Press **MENU** until the MANUAL mode screen appears.
- 3 While the MANUAL mode screen is displayed, press **MENU** for more than 2 seconds to display the FINE mode screen.
The channel number remains in green.
- 4 Adjust for good reception with **VOL (+)/(-)**.
- 5 After finishing the adjustment, press **MENU** to continue channel presetting.
