

TELEVISION TECHNICAL BULLETIN

MODELS **DV5107H** **DV5132H** **DV5135H**

REASON During production, the value of R722 in the primary of the power supply has been changed to ensure that there is no intermittent turn on of the power supply.

ACTION From the May 95 production of the above sets, R722 has been changed from a 120 Ohm resistor to a 270 Ohm resistor

Use the part number below for the new type of R722.

<u>REF NO</u>	<u>DESCRIPTION</u>	<u>PART NUMBER</u>	<u>PRICE CODE</u>
R722	Resistor, 270R	VRD-RA2BE271J	AA
