

Model: XR-C900**No. 414****Subject: NO POWER ON OR NO SOUND WHEN UNIT
HEATS UP****Date:** January 6, 1997**Symptom:**
(11)

The unit will have no power or no sound when a certain high temperature is reached. This may be a protection circuit malfunction of the D/D converter (REF# DDC920).

Solution: Replace the DDC920 on the main board with an improved DC to DC converter
