Sony Service Company - Technical Services  
A Division of Sony Corporation of America  
Sony Drive, Park Ridge, New Jersey 07656

**Model:** RM-S2070K

**No. 265**

**Subject:** Compatibility With Older Models

**Date:** May 4, 1992

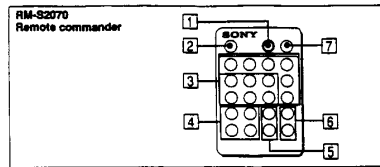

**Symptom:**  
(\*\*)

Although the RMS-2070K Users Guide indicates incompatibility with older model units, such as the STR-AV920/1020 and STR-D2020, it is possible to use the unit with these models.

**Solution:**

When using the RMS-2070K with older model units, the main room repeater RMR-2075 cannot be used. The RMR-2070 remote room receiver should be connected directly to the main room receiver DRLC input. This allows for control of functions previously available when using the RMS-2020K DRLC unit (source selection, remote room volume and remote room tuner presets). The other functions on the RMS-2070K hand held remote will not function (CD Control Functions and Tape Deck Control Functions).

Miscellaneous  
CSA-13

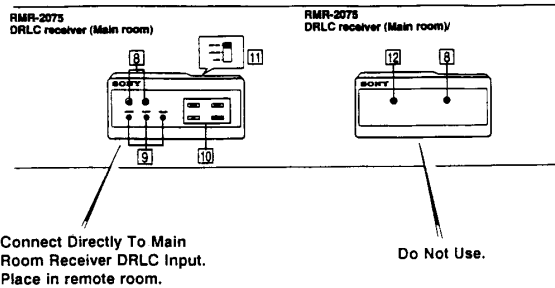

**Functional**

1. DRLC Power
2. SLEEP
4. Main & Function Buttons
5. Tuner Preset Buttons
6. Volume Control Buttons
7. Power-Off

**Non-Functional**

3. Operation Buttons/Learn Buttons CD Control
