

## THE ART OF JEDI COMBAT

The art of Jedi combat is not something that should be entered into lightly. Often severely outnumbered and outgunned, the Jedi are renowned for their ability to quickly and efficiently dispatch multiple enemies at once. Before you throw yourself into a combat situation, please review the following.

### HOW TO TURN A DOZEN BATTLE DROIDS INTO A HARDWARE YARD SALE.

Throw in a Force power or two. A well-timed dose of Force push can buy you valuable seconds to face other opponents or catch your breath.

### WHY "NO" ACTUALLY MEANS "YES".

The Jedi mind trick isn't just for seedy bars and weak-minded people, it also works well in combat. A simple Jedi mind trick can distract your opponent long enough for you to land a well-placed blow. All you'll need is one.

### WHAT TIME IS THE RIGHT TIME FOR FORCE LIGHTNING?

Force lightning, although often associated with the dark side, is one of the deadliest and disabling Force powers. Thousands of volts of electricity fry your adversary into submission. The rule of thumb has always been, if you really need it, use it.
