

New IF Converter Installation Procedure

Introduction

This document provides information for replacing an existing IF Converter with Symmetricom's new IF Converter.

Part Number

IF Converter, 090-72050-71

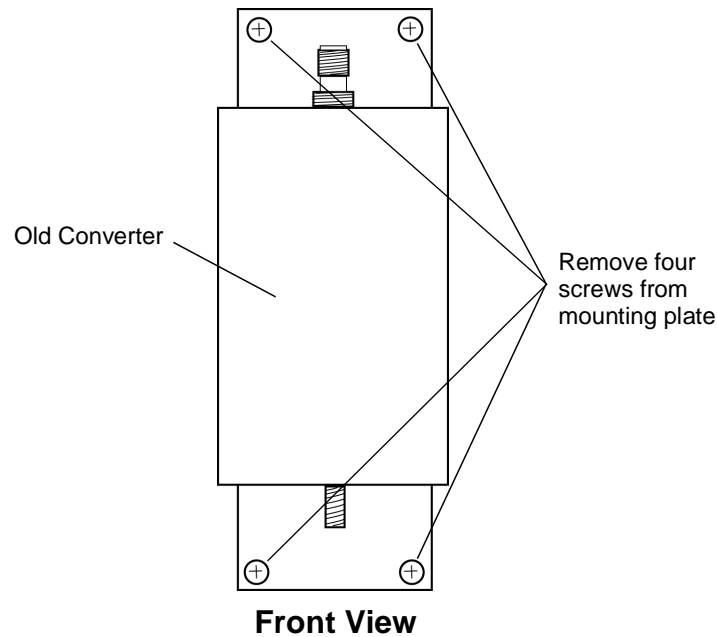

Tools

Phillips screwdriver

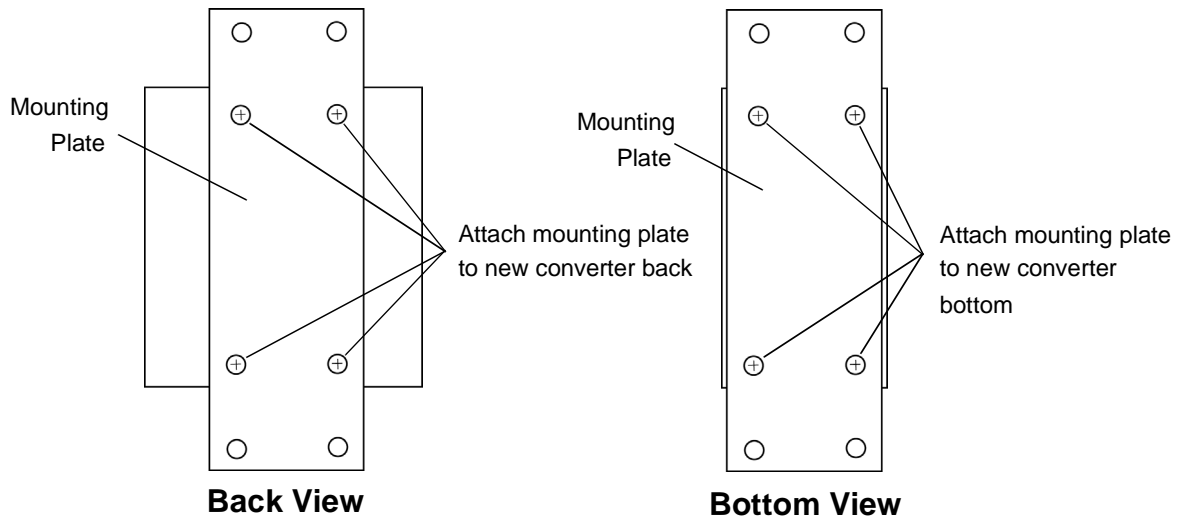

Installation

Use the following steps to remove the old converter and install Symmetricom's new converter.

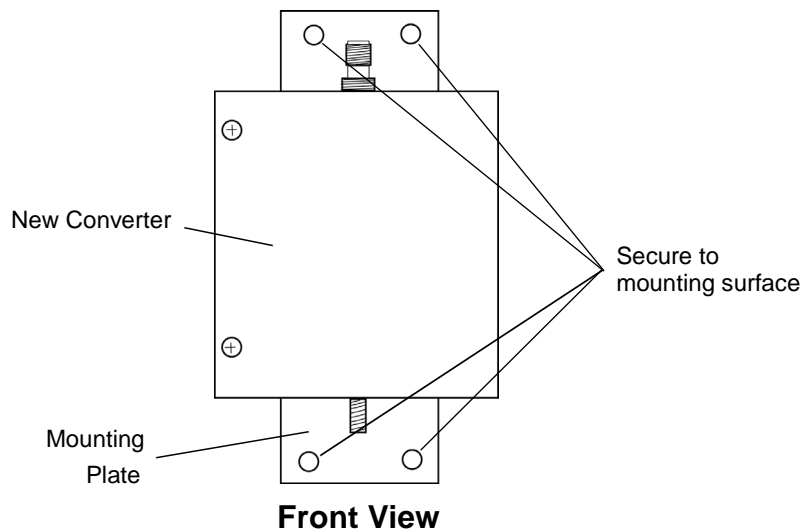

1. To remove the old converter, disconnect the antenna cables and remove the screws that secure the converter to the mounting surface. Discard old converter

2. Select the appropriate position to attach the mounting plate to the new converter. You can attach the mounting plate either to the back or to the side of the converter.
3. Install four screws to secure the mounting plate to the converter.

4. Secure the converter to the mounting surface with four screws through the holes in the mounting plate.

5. Re-connect the antenna cables to complete the installation.
