

Attenuation Accessories

R F A T T E N U A T I O N M E A S U R E M E N T

Accessory Kit for 8850 P/N 187-4001

Extender Card P/N 187-1020-000 VM-7

GPIB (IEEE-488) Cables

Cable P/N 1585-1006

Attenuation Measurement Accessory Kit P/N 187-4001

Attenuation measurement accessory kit for the 8850 system. This measurement accessory kit is carefully comprised of some of the industry's finest quality components for making RF and Microwave measurements. Included are a selection of masking attenuators, a power divider, a type N adapter and termination, and interconnect cables; all in a wooden storage case. The 8850 includes one 187-4001.

SWR Measurement Accessory Kit P/N 187-4003 (no photo)

This kit provides all the necessary items to perform SWR/Return Loss measurements from 50 MHz-18GHz. The kit includes SWR bridges, terminations, adaptors, and opens to perform SWR measurements on devices with SMA, Type N or GPC-7 connectors. The kit includes two wooden storage cases.

Maintenance Extender Card, VM-7 P/N 187-1020-000

Used to access digital boards for repair and verification

Maintenance Extender Card, VM-7 P/N 187-1021-000 (no photo)

Used to access analog boards for repair and verification

Upgrade Kit (VM-7/8852) P/N 187-1009 - I/O (no photo)

For those customers who own a VM-7 with only one bus connector on the I/O card. This printed circuit card upgrade will allow your VM-7 to control the 8852 without a bus controller.

GPIB (IEEE-488) Cables

P/N 1583-3 – 1-meter GPIB bus cable

P/N 1583-6 – 2-meter GPIB bus cable

P/N 1583-9 – 3-meter GPIB bus cable

Rack Mount Kit P/N 187-1007 (no photo)

Rack Mount Kit for the VM-7 (ears only)

Rack Mount Kit P/N 187-1007-1 (no photo)

Rack Mount Kit for the 8852 (ears only)

Rack Mount Kit P/N 187-1008 (no photo)

Rack Mount Kit and chassis slide kit for the VM-7

Cable P/N 1585-1006

N male/N male, 36 inches, DC to 18 GHz for connecting the 8852 to a signal source

SureCAL Software for the 8850 System P/N 8850-SureCAL (no photo)

SureCAL was developed by calibration engineers and technicians who are determined to cut the high cost of manually calibrating and maintaining your equipment. SureCAL Software for RF Components is very flexible and easy to use and is included with every 8850 System. SureCAL is the complete TEGAM solution for all your automated attenuation testing needs.
