
TPI.NET Instructions

The PDF version of this document contains the following embedded file attachments to use with the Tektronix Programmatic Interface (TPI.NET):

- TPI_NET_Reference_Manual_V1.pdf
(Tektronix Logic Analyzer Family TPI.NET Reference Manual, Volume 1 of 4)
- TPI_NET_Remote_Client_Design_Guide_V2.pdf
(Tektronix Logic Analyzer Family TPI.NET Remote Client Design Guide, Volume 2 of 4)
- TLA_Plug-In_Design_Guide_V3.pdf
(Tektronix Logic Analyzer Family TPI.NET TLA Plug-In Design Guide, Volume 3 of 4)
- TPI_NET_Extended_Reference_Manual_V4.pdf
(Tektronix Logic Analyzer Family TPI.NET Extended Reference Manual, Volume 4 of 4)
- TPI.NET Samples_zip

The attached PDF files contain reference information for setting up and using TPI.NET to remotely control a TLA7000 series or TLA5000 series logic analyzer. The TPI.NET Samples_zip file contains collections of sample files to use with your application.

To access the attached files, open the PDF document and click on the paperclip icon (or Attachments tab) on the lower-left side of the document viewer. Copy the PDF files to the desired location on your PC.

Change the name of the *TPI.NET Samples_zip* file to *TPI.NET Samples.zip* (replace the underscore character with a period).

Tektronix recommends that you copy and extract the TPI.NET Samples.zip file to the following location:

C:\Program Files\TLA 700\Samples

NOTE. *When you extract the TPI.NET Samples from the zip file, retain the folder structure. If you change the folder structure, the TPI.NET programs might not work properly or cause unexpected results.*

Contact your local Tektronix representative for additional questions regarding the TPI.NET files.
