This page contains a list of the current Standard Accessories shipped with the instrument. This list supersedes the Standard Accessories listed in the 80E00 Series Electrical Sampling Modules User manual part numbered 071-0434-03.

## Standard accessories

Item	Part number
Certificate of Traceable Calibration for product at initial shipment	Not Orderable
8000 Series Module Upgrade Kit	020-2370-xx
2.4 mm male to 2.92 mm (K) female adapter (80E01 and 80E06 only) <sup>1</sup>	015-0703-xx
SMA male 50 $\Omega$ termination (one per channel)	015-1022-xx
80E00 Electrical Sampling Module User Manual	071-0434-xx
Transit case, ESD protective	004-5091-xx
Transit case, ESD protective (80E06 only)	004-5165-xx

<sup>1</sup> **Because the 2.4 mm connector of this adapter will mechanically interface with the 1.85 mm connector of the 80E06, it serves as a 1.85 mm-to-2.92 mm connector for the 80E06 module**
