## MTM100/PQM100 Monitors, Version 1.0 Operating System Recovery Disc

This CD-ROM contains executables and data files for the Tektronix MTM100 MPEG Transport Monitor and the Tektronix PQM100 Program QoS Monitor operating system and drivers. Use this disc to reinstall the Windows NT operating system or device drivers for these products should it become necessary.

If you received this disc with a software product or software upgrade kit, follow the instructions provided with the product or kit for initial installation.

If you received this disc with an MTM100 MPEG Transport Stream Monitor or a PQM100 Program QoS Monitor, store the disc in a safe place. The operating system has been installed and configured during monitoring system manufacture; however, you may need the disc for future upgrade kits.

**NOTE.** *Save this disc: you may need this disk to install test system options or future upgrade kits or to reinstall the instrument software.*

To use this disc, follow the instructions in the *Software Repair* appendix of the user manual that accompanied your system or upgrade.
