

March 2003
Issue 5

Dear Valued Customer:

A belated Happy New Year from the entire Video team at Tektronix. We hope you'll enjoy our first Video Solutions newsletter of 2003. This issue features the hottest news in video signal monitoring, the WVR600 Waveform Rasteriser family launch last week, and more. As always, give us your feedback and feel free to forward this newsletter to friends and colleagues. Good reading!

Paul Dubery
Video Segment Marketing Manager (EMEA)

In this issue

- [New Waveform Rasterizer](#)
- [WFM700 SD/HD Even Better](#)
- [VTR Chooses Tektronix](#)
- [Timing and Synch NetSeminar](#)
- [Offline Analysis Software for MPEG](#)

[Tektronix Launches New Waveform Rasterizer!](#)

Expanding the choice of video and audio monitoring from Tektronix even further, the new [WVR600 Waveform Rasteriser](#) family provides "4-in-1" capabilities ideally suited for confidence monitoring or artistic monitoring. Incorporating our unique colour gamut displays and error logging with options for digital and analogue audio, this is the ultimate in monitoring innovation. View the WVR600 product demo, download the screensaver, and [Learn More](#).
