

Caution: Static Sensitive Device

061-4243-00

This product includes exposed electronic components which are vulnerable to damage from static electricity. To prevent damage to this unit, use caution in handling and avoid touching the parts on the bottom of the circuit board unless you are properly earthed (grounded) or are working in a static-controlled environment

NOTE: Emissions Compliance

To maintain compliance with radio noise emissions regulations, attach the included ferrite clamp around the cord from any AC/DC adapter used with this unit. The black plastic shell of the ferrite clamp bends in the middle and will snap shut around the cable when closed.
