

Salvage-Titled Vehicle High Voltage Safety Inspection Result

Vehicle VIN: _____

Tesla Service Center: _____ Date: _____

NOTE: The Salvage-Titled Vehicle High Voltage Safety Inspection is intended only to determine if it is safe to work on the high voltage components of the salvage-titled vehicle. The Salvage-Titled Vehicle High Voltage Safety Inspection is not related in any way to drivability or operability of the salvage-titled vehicle.

For the vehicle identified above, the Tesla Service Center identified above has performed the indicated tests or inspected the following systems/components:

Test/System/Component	Result	Notes (Comments or Repairs Required)
Battery Isolation Procedure #1	<input type="checkbox"/> Passed <input type="checkbox"/> Not Passed	<hr/> <hr/>

Battery Isolation Procedure #2	<input type="checkbox"/> Passed <input type="checkbox"/> Not Passed	<hr/> <hr/> <hr/>
Visual inspection		<hr/> <hr/> <hr/> <hr/> <hr/>

Subject to the terms and conditions in CD-21-00-001, "Authorization and Release for Inspection of a Salvage-Titled Vehicle" (the "Inspection Authorization"), the results of the inspection for the vehicle listed above are as specified by the result checked below:

Passed Tesla Service Center Salvage-Titled Vehicle High Voltage Safety Inspection

The vehicle has passed the Salvage-Titled Vehicle High Voltage Safety Inspection.

- Any Tesla limited warranties and extended service agreements for the vehicle remain void.
- Supercharging will not be reinstated.
- All future inspections, service, and repairs will be at your expense.

Customer Authorizes Repairs

The vehicle has not passed the Salvage-Titled Vehicle High Voltage Safety Inspection but might be eligible to pass the inspection if all of the repairs specified in the attached Repair Order estimate are completed. Additional repairs or inspections not detailed in the Repair Order might still be required at additional cost. Tesla strongly recommends that all such repairs be completed at a Tesla Service Center. You have signed the Repair Order estimate authorizing Tesla or a Tesla Approved Body Shop to perform all of the listed repairs.

- Tesla hereby notifies you that the vehicle should not be driven until all such repairs are properly completed at an approved repair facility and/or body shop, and the vehicle has passed the Tesla Salvage-Titled Vehicle High Voltage Safety Inspection.**

 **NOTE:** Performing additional repairs does not guarantee that the Salvage-Titled Vehicle will pass the Salvage-Titled Vehicle High Voltage Safety Inspection. You, the customer, remain responsible for the parts and labor costs of all repairs, irrespective of the inspection outcome.

Customer Declines Repairs

The vehicle has not passed the Salvage-Titled Vehicle High Voltage Safety Inspection but may be eligible to pass inspection, provided all of the repairs specified in the attached Repair Order estimate are completed. Additional repairs or inspections not detailed in the Repair Order might still be required at additional cost. Tesla strongly recommends that all such repairs be completed at a Tesla Service Center. You have declined to authorize Tesla to perform all such repairs. A new Inspection Authorization and new Salvage-Titled Vehicle High Voltage Safety Inspection will be required, at your expense, prior to any later determination by Tesla of whether to service or repair your vehicle.

- Tesla hereby notifies you that the vehicle should not be driven until all such repairs are properly completed at an approved repair facility and/or body shop, and the vehicle has passed the Tesla Salvage-Titled Vehicle High Voltage Safety Inspection.**

- Vehicle Cannot Be Sufficiently Repaired**

The vehicle has not passed the Salvage-Titled Vehicle High Voltage Safety Inspection and cannot be sufficiently repaired to make the vehicle compliant with Tesla's safety standards and vehicle specifications. Tesla will not service or support the high voltage systems/components in this vehicle.

 **NOTE:** You are required to provide a copy of this notification to any subsequent purchasers of the vehicle.
