

Surge Generator G100000

8/20 μ s & 10/350 μ s

NF EN 61643-11 Norm

- **Normalized waves 8/20 μ s et 10/350 μ s**
- **Adjustable current from 5 to 100 kA on any resistive load up to 100 m Ω**
- **Injection on spark gap or varistor with standard wave form**
- **Pulse generator and operator control integrated in a transportable, sound-proof and shielded shelter**
- **long-life: >100,000 shots**
- **Synchronization with mains**
- **Dimensions and weight: 6x2.5x2.5 m - 5 tons**
