ANA 9310
Single Line

BUSINESS TELECOMMUNICATIONS

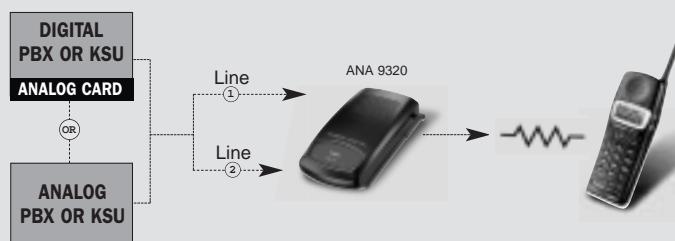

ANA 9320/ANA 9310 900 MHz Business Cordless Telephone

The Uniden ANA9320 and ANA9310 use both ends of the 900MHz frequency, thus avoiding interference with Industrial Inventory System 900MHz products in the marketplace. Also ANA 9320 and ANA 9310 are exclusively engineered for use with all analog phone lines to provide greater flexibility and improved productivity while away from the desk. Customer satisfaction increases as calls no longer go unanswered. And the best part, you'll increase productivity while becoming more efficient.

Analog Interface Configurations (ANA 9310)

Analog Interface Configurations: 2-Line Operation (ANA 9320)

Features:

- **Interference Reaction Text** – The ANA 9320 and ANA 9310 are less susceptible to interference than Spread Spectrum Technology since it uses narrow band.
- **High Performance 900MHz Narrow Band FM with ADPCM** – High quality secured conversation by 32 kbps ADPCM voice codec.
- **LCD Display** – The ANA 9320 and ANA 9310 provide quick and easy-to-read information with a 2-line, 16-digit dot-matrix display plus 3 status icons.
- **Pause, Flash, Redial & Memory** – These features instantly let you choose the appropriate function for convenience and ease.
- **Headset Jack** – Allows for the connection of an optional headset (EXP 9730/9530) for hands-free operation. For easy access, the headset jack is located at the top of the handset.
- **Conference** – Allows you to add other parties to your call through your PBX.
- **Silent Alert** – A vibrating alert will allow you to receive calls without disturbing others and is ideal for noisier environments.
- **3 Selectable Ring Tones and Vibrate Ringer** – You can choose from 3 ring tones and each one can be set to high or low volume. Choose the silent alert (Vibration Mode) to receive calls without disturbing others or if you're in a noisy environment.
- **Ringer ON/OFF Switch on Handset** – Allows you to turn off the ringer to avoid unwanted calls.
- **4 Step Volume Control** – The ANA 9320/9310 lets you select from 4 levels of volume in the earpiece (new HAC regulation compatible).
- **Page/Find** – Allows you to locate the handset easily or to page the handset from the base unit (ANA 9310 only).
- **Hold** – Allows you to easily put your callers on hold via the handset.
- **Transfer** – Allows you to transfer calls to another line with one button through your PBX or Key system.
- **20 Number Memory** – Allows you to store up to 20 phone numbers for quick and easy speed dialing.
- **Mute** – Mute your phone for privacy while in your office or while walking through the halls simply by pushing the Mute ON/OFF Switch.
