

Innovative Cordless Phones from Uniden FACT SHEET

Uniden's strength is in developing innovative wireless communication products that allow for clear, easy communication. While the company offers the best available cordless phone technology, Uniden also focuses on meeting specific needs of users by creating cordless phones that are above and beyond the standard.

Submersible Cordless Phone – WXI377

Cordless phones were created to give users the freedom to use their phone anywhere in the home. Building on its expertise in developing weatherproof products, Uniden has taken this freedom to another level as the first to offer a phone that can be used safely around water, including in the swimming pool and the bathtub!

The 900MHz WXI377 is a fully submersible cordless phone designed to withstand the elements. The phone's outer shell protects it if dropped in the water or exposed to rain, and the handset floats! Features include:

- JIS7 submersible rating
- 900MHz extended range
- 7 hour talk time/14 day battery life
- Caller ID/Call waiting
- 30 Caller ID memory locations
- One touch RocketDial™
- Last number redial
- Find handset locator
- 10 memory dial locations
- Headset jack
- Ringer volume control

Street Retail: \$49.99

Credit-Card Sized Cordless Phone – Neo – TRUc46

This 2.4GHz credit card-sized cordless phone from Uniden offers the utmost convenience. It is a hands-free phone that fits easily in a pocket, yet has the power and clarity of a traditional cordless phone.

The phone comes equipped with a charging cradle and two headsets. Despite its small size, the TRUc46 is feature-rich, including:

- 2.4GHz Digital Spread Spectrum technology
- Caller ID/Call waiting
- 100 dynamic caller ID/memory locations
- VoiceMail waiting indicator
- Distinctive ring tones
- Vibrate ring
- Trilingual menu
- Beltclip included

Street Retail: \$99.99
