

PM100 and PM300 IEEE488 Interface

An IEEE (GPIB) interface for computer control of the **Voltech** PM100 and PM300 power analyzers.

- ◆ For interfacing to IEEE488 (GPIB) controllers in Personal Computers and ATE systems.
- ◆ Implements the IEEE488.2 standard. Fully compatible talker/listener.
- ◆ High speed data to and from an IEEE controller.
- ◆ Bus address (2-30) selected via the front panel and stored during power off.
