OSPREY
34

I N T R O D U C T I O N

It begins with a desire to own a yacht, which entirely meets your expectations. The more expectations you have, the more challenging it is to meet them. This is precisely the quality that makes a Wajer Osprey unique. The choice of materials is more selective than any other yacht in its class.

WATER OYSTREY 34

AMSTERDAM

MADE TO LAST

W A J E R O S P R E Y 3 4

It all began with a desire to create a yacht that entirely meets every expectation. And the greater the expectations were, the greater our challenge of meeting them. This is exactly what Wajer & Wajer realizes at this moment: a new type in the Wajer Osprey range, built using the most selective materials of any yacht in its class. The Wajer Osprey 34.

The Wajer Osprey 34 characterizes itself – just like the Wajer Osprey 37 – with an outstanding design, which results in a timeless and progressive ship. But not only the design is an eye-catcher. In the Wajer Osprey 34 the most innovative technique is used for more comfort and the ship has several remarkable details. Unique like no other, constructed with the well-known beautiful craftsmanship of Wajer & Wajer.

Undoubtedly, the new Wajer Osprey 34 is not only a new milestone in the Wajer & Wajer fleet, but it's unmistakable made to last.

GO YOUR OWN WAY

INDEPENDENCE AND PERFORMANCE

IN OUTSTANDING DESIGN

In the Wajer Osprey 34, the most innovative technique is used. Therefore, the power of this ship cannot be captured in a single word. It has to be felt. Due to the high-end electronics and an underwater exhaust system, the Wajer Osprey 34 is – just like the Wajer Osprey 37 – one of the most silent yachts of its kind.

The Wajer Osprey 34 is developed with the very latest ZF single pod installation system. This single joystick operated pod system is connected to a single Yanmar V8 370hp diesel engine, which is known and appreciated worldwide for its optimal weight/performance ratio. And with the 370 horsepower, the Wajer Osprey 34 is in all its facets exceptional and a great experience to sail with.

The Wajer Osprey 34 is designed together with Vripack International Naval Architects. The aim: create a ship that is both highly innovative and comfortable. With the high-end technique and the remarkable details that are used, the Wajer Osprey 34 is a yacht that is unique in its kind. And besides that, the collaboration between these two acknowledged organisations results in a perfect and comfortable sailing experience.

INVEST IN
YOUR FREEDOM

REMARKABLE DETAILS AND ELEGANT ELEMENTS

During the design process of the Wajer Osprey 34 the goal was simple: quality, extraordinary design, innovative details. Besides the elegant lines in the design, the Wajer Osprey 34 contains remarkable details and items. The onboard atmosphere is one of spaciousness and comfort with everything in place in terms of accommodation and facilities. Cooking amenities, an enclosed toilet space, sleeping facilities and the unique 150° rotating swimming platform are just a few examples of the comfort items on the Wajer Osprey 34.

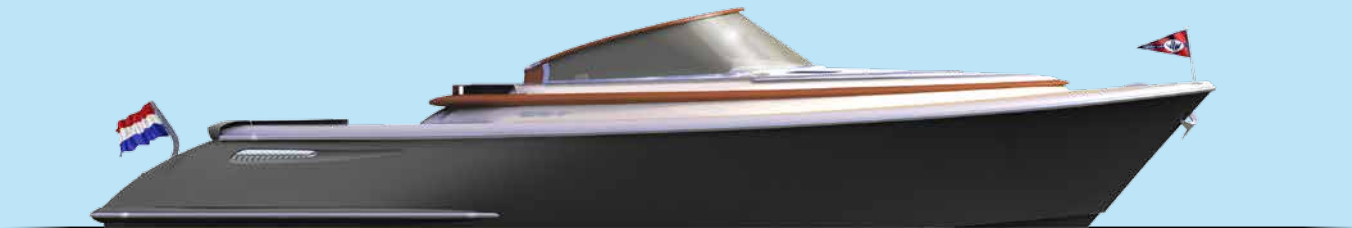

The creators of the yachts have strived endlessly to test and perfect every aspect of their design. When they were satisfied with the result they conducted rigorous quality control to ensure the highest standards of craftsmanship at every level.

THE REST
IS UP TO YOU

Cruising speed: 22 knots

WE BUILD
YOUR DREAM

WE TAKE CARE

WAJER & WAJER

Without any worries in the world does not mean that we only care about the Wajer Osprey, but also about its owner. Focused on service we try to fully relieve our customers by taking care of storage, complete maintenance and preparation of the yacht with a full fuel tank, ready in the harbour for the next sail. The most important goal for Wajer & Wajer is to make sure one can sail all the lakes and seas in the world without any worries.

TIMELESS BEAUTY

FATHER & SON

PASSIONATE ABOUT YACHTS SINCE 1992

Founded in 1992 by Dorus Wajer in the village of Heeg in the northern Dutch province of Friesland and completed with the business qualities of Dries Wajer, Wajer & Wajer has now become a remarkably progressive yacht builder. Since its inception, the yard has made history with four unique models – the Kapiteinssloop and the Wajer Osprey 38, 37 and 34 – each characterised by an elegant design, impeccable sailing performance and excellent durability – in short, the premium quality that customers expect from the Made in Holland label.

CRAFTSMANSHIP

HANDCRAFTED AND ENGINEERED IN THE NETHERLANDS

In our shipyard yachts are not manufactured; they are made by precision technology and solid craftsmanship working seamlessly together. No mass production, but every yacht fully customized for its new owner. With passion for the design and the finest materials. Unique in every detail. Handcrafted and engineered in the Netherlands.
