## **Product Obsolescence Notification**

### **WJOBS28FEB05TC1**

**Notification Date: 28 February 2005**

#### **AH22 High Dynamic Range CATV Amplifier in SOIC-8**

The AH22 is being replaced by the new AH22S. The AH22S has improved performance and is available in tin lead (SnPb) or environmentally Green. The Green version meets the EU requirements for Restriction of the use of Hazardous Substances (RoHS) and can be ordered as AH22S-G.

Last time buys for the AH22 will be accepted until 29 August 2005. Delivery must be accepted by 30 September 2005 or sooner.

During the warranty period, replacements for the AH22 will be made with the AH22S or AH22S-G.

The AH22S is now in full production. Customers can obtain the data sheet, qualification report, samples and an evaluation board from the WJ web site at [www.wj.com](http://www.wj.com).

If you have any questions, please contact Tad Custer, Product Line Manager, WJ Communications, at 408-577-6370 or [Tad.Custer@WJ.com](mailto:Tad.Custer@WJ.com)
