San Jose, CA 95134

## Product Change Notification

**PCN # WJPCN16APR2004**

**For WJ Communications Customers**

**Notification Date: 16 April 2004**

**Parts Affected: MH1, MH101, and MH102**

**Extent of Change:**

Change ESD HBM rating from Class 1B (>500V) to Class 0 (<250V) and ESD CDM rating from Class III (>500V) to Class II (200V to 500V).

**Reason for Change:**

The change will bring the ESD rating in line with recent test results.

**Effective Date of Change:**

This change is effective immediately. Data sheets have been updated and are available from [www.wj.com](http://www.wj.com). In the near future, WJ will be introducing new models, which will have improved ESD ratings.

**Disposition of Current Inventory:**

WJ recommends that the product be used “as is” with normal ESD precautions.

If you have any questions, please contact Tad Custer, Product Line Manager, WJ Communications, at 408-577-6370 or [Tad.Custer@WJ.com](mailto:Tad.Custer@WJ.com)
