

ORIGINATED BY ALAN ROEMER, JEFF LATHAM  
MIKE CLEGG

MODEL OR MODULE AFFECTED ALL M19's #M95

NATURE AND REASON FOR CHANGE Allow oscillator transistor (Q6 M19H, Q3 M19G, Q1, M95)  
to be changed to 5D1006 (4902-01-0060) at tech discretion.

On regular occasion a batch of 2N5109 will come in that are  
sub standard in some electrical respects. An 5D1006 has proven  
to be an effective substitute for it for quite some time. The  
schematics and green samples should be changed to make this  
request fully effective.

DRAWING AFFECTED AND HOW (USE MARKER PRINTS AND ADDITIONAL SHEETS AS NEEDED)
