

XPower Mobile Plug 75

75 Watts Modified Sine Wave Inverter

Universal Automobile Adapter for Cell Phone and Portable Computers

The ideal mobile office companion from Xantrex, XPower Mobile Plug 75 is the smallest power inverter on the market today. It incorporates high frequency technology to convert power from a vehicle's battery (12-volt DC) into standard utility power (120-volt AC, 60 Hz) through a single, three prong outlet. By plugging the XPower Mobile Plug 75 into a vehicle's lighter socket, users can conveniently recharge and run electronic devices, such as cell phones, camcorders, and most laptop computers and PDAs - without the need for multiple adaptors.
