

## UNIX (Linux)

This topic includes:

- "Quick Install Steps" on page 3-43
- "Additional Resources" on page 3-44

Your printer supports connection to a variety of UNIX platforms through the parallel and network interface. The workstations currently supported by CentreWare for UNIX/Linux to a network-connected printer are:

- Sun Solaris
- IBM AIX
- Hewlett-Packard HP-UX
- DEC UNIX
- Linux (i386)
- Linux (PPC)
- SGI IRIX

The following procedures enable you to connect your printer using any of the supported versions of UNIX or Linux listed above.

## Quick Install Steps

### From the Printer

1. Verify that both TCP/IP protocol and the proper connector are enabled.
2. At the printer's front panel, select one of these IP address options:
  - Allow the printer to set up a DHCP address.
  - Enter the IP address manually.
3. Print the "Configuration Page" and keep it for reference. For information about printing Configuration pages, go to [Reference/Features/Front Panel](#) on the *User Documentation CD-ROM*.

## From Your Computer

1. Access [www.xerox.com/office/support](http://www.xerox.com/office/support), to select your printer type.
  - Operating system: **UNIX**
  - File type: **Drivers**
2. From the list of files provided, download the **PrinterPackageXPXX** and the file that matches your operating system
3. Print a test page.
4. Verify the print quality of the printed page.

### Note

If print-quality problems exist, or if your job did not print, go to [Reference/Troubleshooting](#) on the *User Documentation CD-ROM*. You can also access PhaserSMART Technical Support through CentreWare Internet Services.

Launch your web browser.

- a. Enter your printer's IP address in the browser's **Address** field (<http://xxx.xxx.xxx.xxx>).
- b. Select **Support**.
- c. Select the **Technical Support** link to access PhaserSMART.

## Additional Resources

- Information about creating a generic print queue in a specific workstation environment can be found in the Xerox infoSMART Knowledge Base at [www.xerox.com/office/infoSMART](http://www.xerox.com/office/infoSMART).
- Access the Xerox web site for the latest CentreWare for UNIX drivers at [www.xerox.com/office/support](http://www.xerox.com/office/support).
  - a. Select **Download Software Drivers & Utilities**.
  - b. Select your printer, your platform (UNIX), and the printer driver files you want.
  - c. Click **Go to Downloads**.
  - d. Select the appropriate CentreWare printer driver for your platform.
  - e. Also download the **PrinterPackage XPXX**. It provides the printer-specific features of CentreWare for UNIX driver.
