Meeting your office needs.

Performance that can handle your workload.

Advanced performance increases productivity every time you print, copy, or fax. Xerox office printers feature fast processors and powerful print engines to handle huge page counts and heavy network traffic. Choose a color printer and still get the fastest printing because of our leadership in speed-driven single-pass color technology. And, new office multifunction products add capabilities like copying, scanning and faxing to streamline the work you need to do every day.

Ease of use that keeps your workgroup working.

Xerox printers and multifunctions are a pleasure to have around the office. That's because they are ingeniously engineered to be easy to use and problem-free. Installation is streamlined, consumables are simple to replace, and network printer management is intuitive for new users while providing advanced features that system administrators will love.

A trusted brand you can count on.

You are always assured of the highest reliability, quality, and value from Xerox. We stand behind our office products with the unmatched three-year Total Satisfaction Guarantee. Service offerings include Service Agreements, installation, and custom training for your internal help desk.

Print quality that gets you noticed.

Every detail on your page prints at its very best with Xerox office printers. Whether color or black-and-white, you get clear photographic quality and razor-sharp text on any kind of paper – all the punch you need to deliver a full range of extraordinary communications.

Innovative multifunction options.

New office multifunction products offer printing, copying, scanning and faxing capabilities. They not only make you more productive, but are a great investment for budget-minded businesses that want to consolidate assets, reduce costs and improve workflow.
