General Specifications

Model MS5 Potentiometer Converter (Free Range Type)

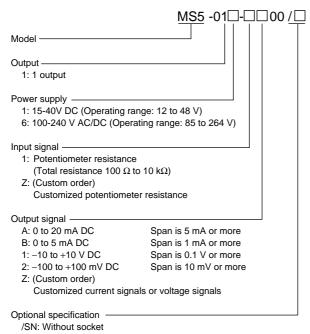

GS 77J04S05-01E

General

The MS5 is a plug-in type potentiometer converter that is used in combination with an instrument to transmit information for displacement of valve etc. by resistance change of potentiometer. It converts the resistance changes into isolated DC current or DC voltage signals.

- I/Ot range setting, burnout setting, output adjustment, I/O monitoring, and loop back test can be made using the optional a Parameter Setting Tool (VJ77) or Handy Terminal (JHT200).
- The operation indicating lamp shows the operation status, abnormalities in a setting etc.
- Adjustment (input range 0%, 100% setting) of combination with potentiometer and output adjustment can be made using the switches on the front panel of the MS5 without a setting tool such as Handy Terminal.

Model and Suffix Codes

Ordering Information

Specify the following when ordering.

- Model and suffix codes: e.g. MS5-016-1A00
- Total resistance: e.g. 2 k Ω
- \bullet Input range: e.g. 0 to 2 k Ω
- Output range: e.g. 4 to 20 mA
- Burnout: e.g. Up

Input/Output Specifications

Input signal: Potentiometer resistance change (3-wire type)

Input signal setting range:

Total resistance: 100 Ω to 10 k Ω

Span: 80 Ω to 10 k Ω (50% of total resistance or more)

Zero elevation: 50% of total resistance or less

Allowable leadwire resistance: 150 Ω or less per wire (Resistance of each wire must be the same.)

Output signal: 1 point of DC current or DC voltage signal

Output signal setting range:

Output signal suffix code	Setting range
A	0 to 20 mA DC Span is 5 mA or more
В	0 to 5 mA DC Span is 1 mA or more
1	± 10 V DC Span is 0.1 V or more
2	$\pm 100 \text{ mV}$ DC $$ Span is 10 mV or more

Allowable load resistance:

Voltage output:

2 k Ω or more for ±5 V DC 10 k Ω or more for ±10 V DC 250 k Ω or more for ±100 mV DC

Current output: 15 (V)/max. output (A) (Ω) or less

Adjustment range:

Output adjustment:

±5% of span or more (Zero/Span)

Standard Performance

Accuracy rating: $\pm 0.1\%$ of span

- However, the accuracy is not guaranteed for output levels less than 0.5% of the span of a 0 to X mA output range type.
- The accuracy is limited according to the output range setting.

Accuracy Calculation

- Compare the specified output range with the output range in the table below (narrower range) and choose accuracy calculation conditions.
- However, $\pm 0.1\%$ is applied if an accuracy obtained from the expression is less than $\pm 0.1\%$.
 - Accuracy = $\pm (0.05 \times a/b + 0.05)\%$

Output signal suffix code		Accuracy calculation condition	
	Output range	а	b
Α	0 to 20 mA DC	10(mA)	
В	0 to 5 mA DC	2.5(mA)	
1	±2.5 V DC	1(V)	
	Outside of ±2.5 V DC	40.0	Output span
	and within ±10 V DC	4(V)	
2	$\pm 25 \text{ mV DC}$	10(mV)	
	Outside of ±25 mV DC	40(m)/)	
	and within ±100 mV DC	40(mV)	

Burnout: Up, Down or Off; the maximum burnout time is specified as 60 seconds.

Response speed: 150 ms, 63% response (10 to 90%) Effect of power supply voltage fluctuations:

 $\pm 0.1\%$ of span or less for the fluctuation within the operating range of each power supply voltage specification.

Effect of ambient temperature change:

 $\pm 0.15\%$ of span or less for a temperature change of 10°C.

Power Supply and Isolation

Power supply rated voltage: 15-40 V DC ... or 100-240 V AC/DC = 50/60 Hz Power supply input voltage: 15-40 V DC ... (±20%) or 100-240 V AC/DC = (-15, +20%) 50/60 Hz Power consumption: 24 V DC 1.7 W, 110 V DC 1.6 W 100 V AC 3.5 VA, 200 V AC 4.9 VA Insulation resistance: 100 MΩ at 500 V DC between input, output, power supply, and grounding terminals mutually. Withstand voltage: 2000 V AC for 1 minute between input, output, power supply and grounding

terminals mutually.

Environmental Conditions

Operating temperature range: 0 to 50°C Operating humidity range: 5 to 90% RH (no condensation)

Operating conditions: Avoid installation in such environments as corrosive gas like sulfide hydrogen, dust, sea breeze and direct sunlight. Installation altitude: 2000 m or less above sea level.

Mounting and Dimensions

Construction: Plug-in type

Material: Main unit : ABS resin (black), UL94 V-0 ABS resin + polycarbonate resin (black), UL94 V-0 PBT resin, including glass fiber (black), UL94 V-0 Socket: Modified polyphenylene oxide resin,

including glass fiber (black), UL94 V-1

Mounting: Wall or DIN rail mounting

Connection: M3.5 screw terminals

External dimensions: 86.5 (H) \times 51 (W) \times 123 (D) mm (including a socket)

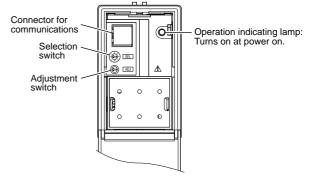

Weight: Main unit: approx. 200 g Socket: approx. 60 g

Accessories

Spacer: One (for DIN rail mounting) Range label: One

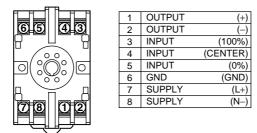

Front Panel

Output can be adjusted and input range can be set using the selection switch and adjustment switch.

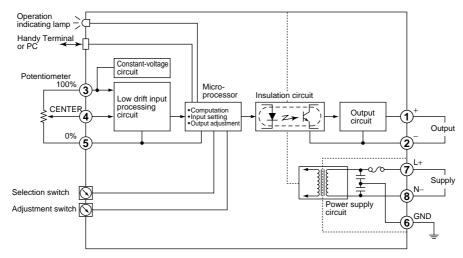

Position of selection switch	Item to be adjusted	
0	No function	
1	Output zero adjustment	
2	Output span adjustment	
5	Input setting (0% value)	
6	Input setting (100% value)
