Model DH5
SQUARE ROOT EXTRACTOR

JUSTA

1. General

This DCS correspondence nest stored type signal isolator with square root extractor extracts square root of 1~5V DC signal and converts them into various current or voltage signals.

- Incorporation of one-chip microcomputer provides high efficiency and superior performance.
- Low cut point setting, zero and span of I/O adjustment and I/O monitoring can easily be made even in the field by upper system or handy terminal.
