INTRODUCTION

The compilers of this Swahili-English dictionary, the first new lexical work for English speakers in many years, hope that they are offering to students and translators a more reliable and certainly a more up-to-date working tool than any previously available. They trust that it will prove to be of value to libraries, researchers, scholars, and governmental and commercial agencies alike, whose interests and concerns will benefit from a better understanding and closer communication with peoples of Africa.

The Swahili language (*Kiswahili*) is a Bantu language spoken by perhaps as many as forty million people throughout a large part of East and Central Africa. It is, however, a native or 'first' language only in a quite restricted area consisting of the islands of Zanzibar and Pemba and the opposite coast, roughly from Dar es Salaam to Mombasa.

Outside this relatively small territory, elsewhere in Kenya, in Tanzania (formerly Tanganyika), and to a lesser degree in Uganda, in the Republic of the Congo, and in other fringe regions hard to delimit, Swahili is a *lingua franca* of long standing, a 'second' (or 'third' or 'fourth') language enjoying a reasonably well accepted status as a supra-tribal or supra-regional medium of communication.

Its chief competitor in this function is English, and English is of course a formidable competitor indeed in Kenya and Tanzania and particularly in Uganda. The competitors are both English and Luganda in Uganda, both French and Lingala in the Congo. In the long view, the future of Swahili is difficult to predict; but, for the present, its position appears to be more stable than that of any other African language.

The older literature of the language, written in Arabic characters, goes back to the seventeenth century and includes a wide range of subject matter and forms, from poetry to chronicles and history. There is an abundance of modern material, including perhaps a thousand titles in short stories, poetry, scholarly works, and text books for elementary and secondary schools. Swahili can no longer be considered in the category of the 'rarer' languages. There are several Swahili newspapers as well as various commercial media in circulation, and there is an abundance of excellent teaching aids, such as E.V. Parrott's *Teach Yourself Swahili* (The English Universities Press Ltd., London). The East African Literature Bureau of Nairobi has published a great many Swahili titles, and Longmans, Green and Company Ltd., London, should also be mentioned as having made much educational material available in the language.

In view of these resources, the compilers of this dictionary have not felt it necessary or advisable to expand the volume with phonetic or grammatical aids. This volume is primarily and specifically a word source for readers and translators. Like all subsequent compilations, it builds gratefully upon the *Standard Swahili-English and English-Swahili Dictionary* in two volumes, prepared under the direction of Frederick Johnson and published by the Oxford University Press in 1939. The present dictionary has critically reappraised the entire word-stock of the language, modernizing and augmenting from many sources. It brings the vocabulary up to date, including the fantastic developments since World War II.

ACKNOWLEDGMENTS

The compilers are moved by piety and by a sense of real and deep indebtedness when they acknowledge the long line of earlier toilers in this particular vineyard: Krapf, Steere, Madan, Johnson (and his many associates), Sacleux, Olderogge, and Höftmann.*

They wish also to acknowledge the very substantial assistance of Miss Barbara Dudley and Mr. Harold A. Goldklang, who furnished lists of new entries and of new senses for old entries drawn from their long experience in reading contemporary Swahili texts of many kinds.

They must finally express their very great obligation to Messrs. Harry Goff and Eugene R. Garnett, who prepared the final text of the dictionary, and to the Right Reverend James A. Magner and other officials of the Catholic University of America Press, who have given it a handsome and practical outward form.

*See Marcel van Spaandonck, *Practical and Systematical Swahili Bibliography, Linguistics 1850-1963*. Leiden (E.J. Brill), 1965.

A NOTE ON THE CONSTRUCTION OF THE DICTIONARY

1. Derivative verb forms (applicative, causative, etc.) are listed under the base form of the verb. When the base form is not in current use, the derivative forms appear as separate entries. In cases where derivative forms are much commoner than, or differ drastically in sense from, the base verb, they also appear as separate entries.

2. Derivative nouns (formed with the prefixes *ki-*, *m-*, *u-*, etc.) appear in the normal alphabetical order of the prefix, with a cross-reference to the base word.

3. At the end of the entry for each base word there is an alphabetical list of derivative words (if any) appearing as main entries in this dictionary: *Cf.* ...

4. Words of Arabic origin are likewise cross-referenced to derivative or related words.

5. Common synonyms of rare entries are given in parentheses: (= ...)

6. Each noun is followed by its plural prefix in parentheses or by the indications *sing.* or *pl.* if the entry is commonly used only in the singular or in the plural. The indication (-) after an entry means that the entry is a noun having in the plural the same form as in the singular.

SIGNS AND ABBREVIATIONS

* foreign loanword (from Arabic unless otherwise specified)	<i>aux., auxil.</i> auxiliary
(-) plural the same as singular (i.e., without prefix)	<i>av.</i> aviation
< derived from...	<i>Bibl.</i> Biblical
= (more or less) synonymous with...	<i>biol.</i> biological term
<i>abbr.</i> abbreviation, abbreviated as...	<i>bot.</i> botanical term
<i>abs.</i> absolute	<i>caus.</i> causative
<i>adj.</i> adjective	<i>chem.</i> chemistry
<i>adv.</i> adverb(ial)	<i>Christ.</i> Christian (as opposed to Muslim) usage
<i>affirm.</i> affirmative	<i>cl.</i> class
<i>Afr.</i> Afrikaans	<i>coll.</i> colloquial
<i>agr., agric.</i> agriculture	<i>collec.</i> collective
<i>amplic.</i> amplicative (= augmentative)	<i>comm.</i> communist terminology
<i>anat.</i> anatomical	<i>conj.</i> conjunction
<i>anth.</i> anthropology	<i>conn.</i> connective
<i>app.</i> approximately	<i>consec.</i> consecutive
<i>appl.</i> applicative	<i>cont.</i> contactive
<i>approx.</i> approximately	<i>contr.</i> contrast(ed)
<i>Ar.</i> Arabic	<i>cul.</i> culinary
<i>arch.</i> archaic	<i>dem., demon.</i> demonstrative
<i>arith.</i> arithmetic	<i>derog.</i> derogatory
<i>ass.</i> associative	<i>det.</i> determinative
<i>astr., astron.</i> astronomy	<i>dial.</i> dialectal
<i>augm., augment.</i> augmentative	<i>dimin.</i> diminutive
<i>auto.</i> automotive term	<i>dur.</i> durative

econ. economics
elec. electricity
emph. emphatic
encl. enclitic
Engl. English
esp. especially
eth., ethn. ethnology
euph. euphemism
expr. expression
fem. feminine
fig. figurative(ly)
fin. finance
fol. following
Fr. French
gen. general(ly)
geogr. geographical term
geom. geometry
Germ. German
gramm. grammatical term
hist. historical
id. ideophone
imp., imper. imperative
Ind. Indian (Hindi, Gujerati, etc.)
indef. indefinite
inf. infinitive
int. intensive
interj. interjection

interr., interrog. interrogative
intr. intransitive
inv. inversive
Isl. (term usually restricted to Islamic contexts)
Jap. Japanese
jur. jurisprudence
Lat. Latin
leg. legal term
ling. linguistics
lit. literal(ly)
liter. literary
loc. locative
Lug. Luganda
Mal. Malay
masc. masculine
math. mathematics
mech. mechanics
med. medical term
meteor. meteorology
mil. military
min. mining, mineralogy
mod. modern
mus. music
myth. mythology
n. noun
naut. nautical
neg. negative

num. numeral
obj. object
obs. obsolete
onom. onomatopoeic
opp. (as) opposed (in meaning to...)
opt. optics
orig. originally
ornith. ornithology
parl. parliamentary term
part. particle
pass. passive
pej., pejor. pejorative
pers. person, personal
Pers. Persian
pharm. pharmaceutical term
phon. phonetics
phot. photography
phy. physiology
phys. physics
pl., plur. (occurring commonly only in the plural)
pol. political term
polyg. (term relating to the practice of polygamy)
Port. Portuguese
poss. possessive
pr. proper (noun)
prep. preposition(al)
prob. probable, probably

pron. pronoun
prov. proverb
psych. psychology
