

Correction to “Improved Field-Effect Transistor Performance of a Benzotrithiophene Polymer through Ketal Cleavage in the Solid State”

Christian B. Nielsen,* Eun-Ho Sohn,* Dong-Jun Cho, Bob C. Schroeder, Jeremy Smith, Mongryong Lee, Thomas D. Anthopoulos, Kigook Song, and Iain McCulloch

ACS Appl. Mater. Interfaces **2013**, *5* (5), 1806–1810. DOI: 10.1021/am303138q

This paper was an invited article that was intended to be published in the Forum on Advancing Technology with Organic and Polymer Transistors, which appears in this issue of the journal. However, due to a production error, the paper was included in issue 5 of the journal.
