

Retraction Notice for Composite Polymeric Magnetic Nanoparticles for Codelivery of Hydrophobic and Hydrophilic Anticancer Drugs and MRI Imaging for Cancer Therapy

Abhalaxmi Singh, Fahima Dilnawaz, Sujeet Mewar, Uma Sharma, N. R. Jagannathan, and Sanjeeb Kumar Sahoo*

ACS Appl. Mater. Interfaces 2011, 3 (3), 842–856, DOI: 10.1021/am101196v

All authors retract this article because of inconsistencies that have been identified in data presented in several of the figures within the article and with respect to other papers published by our group. Specific identified issues relating to other published articles include:

- (1) Figure 8a of *Biomaterials* 2012, 33, 2936–2951 was incorrectly reused as Figure 5b in the present article. The control images relate to different experiments and should be different.
- (2) The image of GMO-MNPs in Figure 2a was inappropriately duplicated from in *PLoS ONE* 2011, 6, e26803 (Figure 1).
- (3) The histogram in Figure 2c of the above paper is exactly same shape as that of Figure 4d in *Biomaterials* 2010, 31, 3694–3706, even though it refers to a different distribution of particle sizes.

In addition, the portion of Figure 8a relating to β -actin was erroneously duplicated from Figure 8b of the same article.

The co-authors of the manuscript from All India Institute of Medical Sciences are not held responsible for the errors that occurred in the manuscript.
