

Retraction of Mechanistic Basis for Epstein–Barr Virus Ribonucleotide-reductase Small-Subunit Function

Florian Schmitzberger,* Daniel Gurmu, Sue-Li Dahlroth, and Pär Nordlund

ACS Chemical Biology, 2012, ASAP

The corresponding author, Florian Schmitzberger, wishes to retract the article “Mechanistic Basis for Epstein–Barr Virus Ribonucleotide-reductase Small-Subunit Function” on the basis that the article was submitted for publication without the knowledge and approval of any of the co-authors listed. This retraction is endorsed by the Editor Laura Kiessling. The original paper is available as Supporting Information.
