

Correction to Revealing Nature's Synthetic Potential through the Study of Ribosomal Natural Product Biosynthesis

Kyle L. Dunbar and Douglas A. Mitchell*

ACS Chem. Biol. **2013**, *8*, 473–487. DOI: 10.1021/cb3005325

We inadvertently cited the wrong *Chemical Science* paper for Prof. Challis' bottromycin work (ref 43 in our published paper). The following is the correct citation: Gomez-Escribano, J.-P., Song, L., Bibb, M. J., and Challis, G. L. (2012) Posttranslational β -methylation and macrolactamidation in the biosynthesis of the bottromycin complex of ribosomal peptide antibiotics. *Chem. Sci.*, *3*, 3522–3525.

The Bibb/Challis group had two papers on different topics by the same group of authors published in *Chemical Science* in 2012, which contributed to our unfortunate error.
