

Correction to "The Top Prescription Drugs of 2009–2012" Editorials

Craig W. Lindsley

ACS Chem. Neurosci. **2009**, *1* (6), 407–408. DOI: 10.1021/cn1000556*ACS Chem. Neurosci.* **2010**, *2* (6), 276–277. DOI: 10.1021/cn200050c*ACS Chem. Neurosci.* **2011**, *3* (8), 630–631. DOI: 10.1021/cn3000923*ACS Chem. Neurosci.* **2012**, *4* (6), 905–907. DOI: 10.1021/cn400107y

The structure of aripiprazole (Abilify) was inadvertently drawn incorrectly, with a two-carbon linker rather than the correct four-carbon linker in the four editorials listed above by Craig Lindsley.

The correct structure of aripiprazole (Abilify) is shown below:
