

Correction to Repurposing Cryptosporidium Inosine 5'-Monophosphate Dehydrogenase Inhibitors as Potential Antibacterial Agents

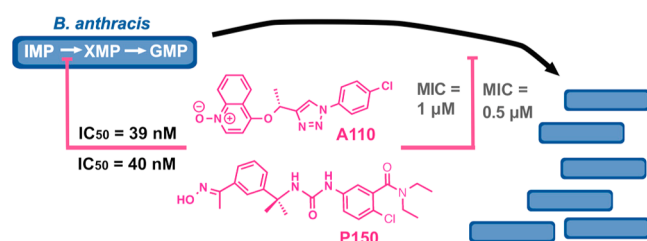

Kavitha Mandapati, Suresh Kumar Gorla, Amanda L. House, Elizabeth S. McKenney, Minjia Zhang, Suraj Nagendra Rao, Deviprasad R. Gollapalli, Barbara J. Mann, Joanna B. Goldberg, Gregory D. Cuny, Ian J. Glomski, and Lizbeth Hedstrom*

ACS Med. Chem. Lett. 2014, 5 (8), 846–850. DOI: 10.1021/ml500203p

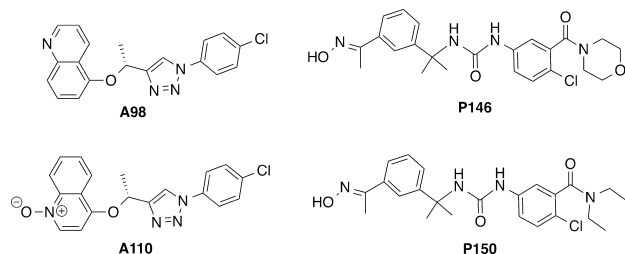

Supporting Information

The structures of A98, P146, and P150 in the TOC Graphic and Figure 3b were incorrect. The Cl substituent should be in the 4 position, and the amide substituents should be in the 3 position as shown below. Regrettably, several structures were incorrect in the supporting materials.

Corrected TOC graphic:

Corrected Figure 3B:
