

Retraction of “Novel 2-Aminobenzamides as Potential Orally Active Antithrombotic Agents”

Amit Verma, Rajani Giridhar, Ashish Kanhed, Anshuman Sinha, Pratik Modh, and Mange R. Yadav*

ACS Med. Chem. Lett. **2013**, *4*, 32–36. DOI: 10.1021/ml300217f

The authors retract the article entitled “Novel 2-Aminobenzamides as Potential Orally Active Antithrombotic Agents” published in *ACS Medicinal Chemistry Letters*, **2013**, *4*, 32–36 (DOI: 10.1021/ml300217f) due to the confirmed scientific misconduct of Mr. Amit Verma. Based on the results of investigation of a committee established by The Head, Pharmacy Department, Faculty of Technology and Engineering, The M. S. University of Baroda, Vadodara, the authors conclude that some of the biological experiments represented in the Letter are not reproducible due to manipulation and/or misrepresentation by Mr. Amit Verma. Therefore, all authors agreed on retraction of this paper.
