

Gene Expression, Biodistribution, and Pharmacoscintigraphic Evaluation of Chondroitin Sulfate—PEI Nanoconstructs Mediated Tumor Gene Therapy [*ACS Nano* **2009**, *3*, 1493–1505]. Atul Pathak, Pradeep Kumar, Krishna Chuttani, Sanyog Jain, Anil K. Mishra, Suresh P. Vyas, and Kailash C. Gupta*

The authors regret an error in the legend to Figure 5. On page no. 1496, the legend to Figure 5, line no. 3, “Native PEI and CP-3 nanoconstruct incubated with BSA for 3 h are shown in lanes 2 and 3, respectively.” should be read as follows:

“CP-3 nanoconstruct and native PEI incubated with BSA for 3h are shown in lanes 2 and 3, respectively.”
