

Encapsulating ^{111}In in Nanocontainers for Scintigraphic Imaging: Synthesis, Characterization, and *In Vivo* Biodistribution [*ACS Nano* **2010**, *4*, 342–348]. Manuel M. Tsotsalas, Klaus Kopka, Gianluigi Luppi, Stefan Wagner, Marilyn P. Law, Michael Schäfers Luisa De Cola*

In the Supporting Information of the original article, the mass of the molecule given on page 3 was for the precursor and not for the final stopper molecule. The corrected mass for the stopper molecule is 387.2424, and the corrected mass spectrum is provided below.
