

## Effect of Film Thickness and Domain Spacing on Defect Densities in Directed Self-Assembly of Cylindrical Morphology Block Copolymers.

[*ACS Nano ACS Nano* 2012, 6, DOI: 10.1021/nn205120j]. Vindhya Mishra, Glenn H. Fredrickson, and Edward J. Kramer

Figure 9, page G. The legend in the figure is incorrect. The corrected figure is shown below. The numbers given in the text are correct.

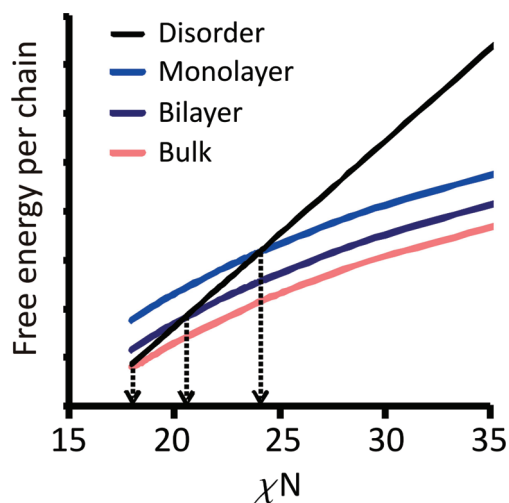

Figure 9. Differences in free energy per chain of the block copolymer in a monolayer, bilayer and bulk phase, compared to the disordered state free energy.
