

Erratum

On Cone Frustum Pressure Gradient Effects on Transition

Kenneth F. Stetson

*U.S. Air Force Wright Aeronautical Laboratories,
Wright-Patterson Air Force Base, Ohio*

[AIAAJ 26, No. 4, pp. 500-502 (1988)]

THE following error was made inadvertently during production of this paper. Figures 2 and 3 and their captions were transposed. They should read as published here:

Fig. 2 Surface pressure data for the nonadverse pressure gradient model.

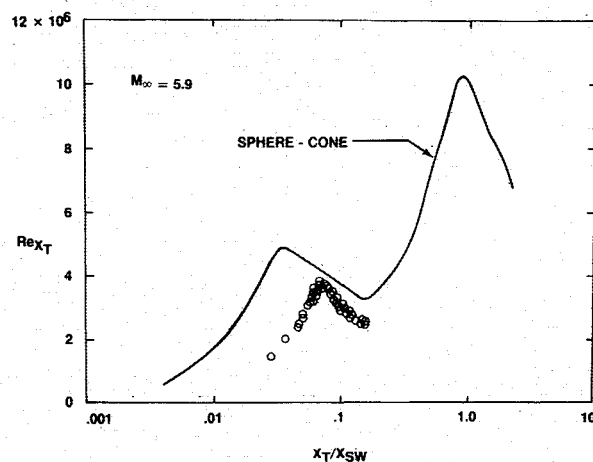

Fig. 3 Transition Reynolds numbers for the nonadverse pressure gradient mode.

Notice to Subscribers

We apologize that this issue was mailed to you late. As you may know, AIAA recently relocated its headquarters staff from New York, N.Y. to Washington, D.C., and this has caused some unavoidable disruption of staff operations. We will be able to make up some of the lost time each month and should be back to our normal schedule, with larger issues, in just a few months. In the meanwhile, we appreciate your patience.
