

Technical Comments

Erratum: "Assumptions Underlying the 'Thin-Skin' Heat-Transfer Approximation"

EUGENE E. COVERT*

Massachusetts Institute of Technology, Cambridge, Mass.

[J. Aircraft 2, 255-256 (1965)]

THE author would like to call attention to a typographical error in a note in this Journal. In the fifth line above Eq. (9) the estimate of the thickness of the end effect should read

$$\delta/l = (b/l)(B)^{-1/2}$$

instead of

$$\delta/l = [b/l(B)^{1/2}]$$

Received July 26, 1965.

* Associate Professor, Department of Aeronautics and Astronautics.

MOVING?

The post office WILL NOT forward this publication unless you pay additional postage. SO PLEASE . . . at least 30 days before you move, send us your new address, including the postal zone or ZIP code. Your old address label will assist the Institute in correcting your stencil and insuring that you will receive future copies of this publication.
