R. R. Duncan	Jerry V. Kirk	Larry D. Pinson	Ray H. Wright
Orville Dunn	Theodore W. Knacke	K. Pister	E. Carson Yates
August J. Durelli	John S. Knauer	Edward C. Polhamus	Melvin S. Zisfein

* Because it is difficult to include the reviewers for October, November, and December 1968 in this issue of the *Journal*, they will be listed with the reviewers for 1969, in the January 1970 issue.

Survey Paper Awards To Be Repeated in 1969

At its meeting on October 23, 1968, the AIAA Board of Directors acted on a Publications Committee recommendation to authorize a second trial year for the four awards for the best survey papers in each of the AIAA journals (*AIAA Journal*, *Journal of Spacecraft and Rockets*, *Journal of Aircraft*, and *Journal of Hydronautics*). The winners of the first year's awards will be announced shortly by the Editors-in-Chief of the journals, and the awards will be presented at the 7th Aerospace Sciences Meeting in New York in January 1969.

The period for submission of papers for the second series of Survey Paper Awards will be October 1, 1968 through September 30, 1969. Like the current series, each award will carry an honorarium of \$750, which will be presented at the subsequent Aerospace Sciences Meeting in January. Judges will be the Editors-in-Chief and the Associate Editors of the appropriate *Journal*.

A competent survey paper is one which *critically* reviews all significant accomplishments in a given field, citing all prior pertinent literature. It thereby provides an informed basis from which the reader can proceed to his own evaluation of current activities in the field.

Jerry Grey
Vice-President, Publications
