

Letter to the Editor

Dear Sir:

I should like to point out that "An Analysis of Fully Developed Laminar Flow in an Eccentric Annulus" (1) already has been made much earlier by Piercy et al. (2) and by Caldwell (3).

1. Snyder, W. T., and G. A. Goldstein, *A.I.Ch.E. J.*, **11**, No. 3, 462 (May, 1965).
2. Piercy, N. A. V., M. S. Hooper, and H. F. Winny, *Phil. Mag. Ser. 7*, **15** (March, 1933).
3. Caldwell, A., *J. Roy. Tech. Coll. Glasgow* (1930).
