

# AICHE JOURNAL

SEPTEMBER 1979 • VOL. 25, NO. 5

The AIChE Journal, a publication of the American Institute of Chemical Engineers, is devoted to fundamental research and developments having immediate or potential value in chemical engineering.

**PUBLISHER**

J. C. Forman

**PUBLICATIONS DIRECTOR**

Larry Resen

**EDITOR**

Robert H. Kadlec

**PRODUCTION EDITOR**

Maura Mullen

**EDITORIAL ASSISTANT**

Barbara T. Lynn

**EDITORIAL BOARD**

R. Dale Biggs

K. C. Chao

James M. Douglas

George R. Gavalas

L. Louis Hegedus

Maurice A. Larson

Dan Luss

Daniel D. Perlmutter

Joseph A. Polack

W. R. Schowalter

Kenneth A. Smith

Stephen Whitaker

Publication Office, 215 Canal street, Manchester, New Hampshire. Published in January, March, May, July, September, and November by the American Institute of Chemical Engineers, 345 East 47 Street, New York, New York 10017. (ISSN No. 0001-1541) Manuscripts should be submitted to Robert H. Kadlec, Editorial Offices, Room 3036, East Engineering Building, The University of Michigan, Ann Arbor, Michigan 48109. Statements and opinions in the *AIChE Journal* are those of the contributors, and the American Institute of Chemical Engineers assumes no responsibility for them. Subscription: one year, \$60; special member rate, \$10; additional yearly postage, Canada \$4.00, Pan American Union \$4.00, other foreign \$4.00 (foreign subscriptions payable in advance). Single copies: \$16.00. Single copies more than one year old: \$17.00. Second-class postage paid at New York, N. Y. and additional mailing offices. Copyright 1979 by the American Institute of Chemical Engineers. National headquarters of AIChE is concerned about nondelivery of copies of the *AIChE Journal* and urgently requests subscribers to give prompt notification of any change of address. Sixty days must be allowed for changes to be made in the records.

Postmaster: Please send form 3579 to AIChE Journal, 345 East 47 Street, New York, N. Y. 10017.

## AIChE Symposium Series

### Recent Studies

**186. Plasma Chemical Processing.** The papers in this volume deal with thermal plasmas and thermal plasma processing. They reflect the increasing interest and potential of this emerging technology.

**1979. 92 pp. AIChE members, \$7.50; nonmembers, \$20**

**188. Control of Emissions from Stationary Combustion Sources: Pollutant Detection and Behavior in the Atmosphere.** The papers in this volume are grouped into four broad categories: control of emissions from stationary combustion sources, particularly SO<sub>x</sub> and NO<sub>x</sub>; pollutant behavior in the atmosphere; advances in air pollution analysis, and air quality management.

**1979. 283 pp. AIChE members, \$10.00; nonmembers, \$22.50**

**189. Heat Transfer—San Diego 1979.** This volume consists of papers presented at the 18th National Heat Transfer Conference held in San Diego, August 5-8, 1979. The major topics covered are: Uncertainty Analysis in Heat Transfer; Direct Contact Heat Transfer; and Solar Energy Heat Transfer.

**1979. 315 pp. AIChE members, \$12.00; nonmembers, \$24**

Order from American Institute of Chemical Engineers, 345 East 47 Street, New York, New York 10017.
