SEVENTY FIVE YEARS OF PROGRESS

Publication Office, 20th and Northampton Streets, Easton, Pa. 18042. Published in January, March, May, July, September, and November by the American Institute of Chemical Engineers, 345 East 47 Street, New York, New York 10017. (ISSN 0001-1541) Manuscripts should be submitted to Robert H. Kadlec, Editorial Offices, Department of Chemical Engineering, Dow Building, The University of Michigan, Ann Arbor, Michigan 48109. Statements and opinions in the *AIChE Journal* are those of the contributors, and the American Institute of Chemical Engineers assumes no responsibility for them. Subscription: one year, \$85; special member rate, \$16; additional yearly postage outside U.S.A. \$5 (foreign subscriptions payable in advance). Single copies: \$16.50. Single copies more than one year old: \$17.50. Second-class postage paid at New York, N.Y. and additional mailing offices. Copyright 1983 by the American Institute of Chemical Engineers, National headquarters of AIChE is concerned about nondelivery of copies of the *AIChE Journal* and urgently requests subscribers to give prompt notification of any change of address. Sixty days must be allowed for changes to be made in the records.

Postmaster: Please send change of addresses to *AIChE Journal*, 345 East 47 Street, New York, N.Y. 10017.

AIChE Symposium Series Recent Studies

S 219 Recent Advances in Adsorption and Ion Exchange. The papers in this volume represent a broad cross-section of the work currently being pursued in the fields of adsorption and ion exchange. In particular, the increasing interest in ion exchange applications is well demonstrated by the large number of ion exchange papers included in this book.

1982. 150pp. AIChE members \$17; others \$34

S 220 Uncertainty Analysis for Engineers. This series of papers serves to show that uncertainty and risk analysis are being applied to a range of appropriate situations in technology. The contributions not only deal with economics feasibility but are also concerned with system design, operations analysis, and the evaluation of test data.

1982. 62pp. AIChE members \$10; others \$20

S 221 Recent Developments in Uranium Enrichment. Papers intended to provide a current overview of the technology associated with, and commercial status of, uranium enrichment are featured in this volume.

1982. 98pp. AIChE members \$12.50; others \$25

1983 Prepayment Policy: Payment must accompany all orders for less than 10 books. AIChE members may order only one copy of each title at the member price, and must indicate Membership ID Number and countersign purchase orders in order to qualify for AIChE Member Price. No charge for postage and handling on prepaid U.S. orders which are shipped bookrate. All foreign orders, regardless of quantity, must be accompanied by payment in U.S. dollars and include \$2.00 per book to cover postage and handling on bookrate shipments. When faster service is required, please contact AIChE to determine additional cost. *Pro forma* invoice will be supplied on request.

Order from Publications Sales, Dept. M, American Institute of Chemical Engineers, 345 East 47 Street, New York, New York 10017.
