AIChE Symposium Series Recent Studies

S 222 Fluidization and Fluid-Particle Systems: Theories and Applications. This volume presents work directed both toward increasing our understanding of basic fluidization principles, as well as reporting on the results of specific examples. Papers on heat transfer, sedimentation, sintering, attrition, bubbles, and distributors in fluidized beds appear in this work.

1983. 109pp. AIChE members \$17; Others \$34

S 223 Advances in Production of Forest Products. The general theme of this volume is to present applications of chemical engineering to the forest products industry. Papers describe applications to the production of pulp and paper, chemical and energy production from wood, and structural wood products. The diversified subjects of the papers are indicative of the important role chemical engineers have in the forest products industry.

1983. 87pp. AIChE members \$15; Others \$30

1983 Prepayment Policy: Payment must accompany all orders for less than 10 books. AIChE members may order only one copy of each title at the member price, and must indicate Membership ID Number and countersign purchase orders in order to qualify for AIChE Member Price. No charge for postage and handling on prepaid U.S. orders which are shipped bookrate. All foreign orders, regardless of quantity, must be accompanied by payment in U.S. dollars and include \$2.00 per book to cover postage and handling on bookrate shipments.
