Publication Office, 20th and Northampton Streets, Easton, Pa. 18042. Published in January, March, May, July, September, and November by the American Institute of Chemical Engineers, 345 East 47 Street, New York, New York 10017. (ISSN 0001-1541) Manuscripts should be submitted to Robert H. Kadlec, Editorial Offices, Department of Chemical Engineering, Dow Building, The University of Michigan, Ann Arbor, Michigan 48109. Statements and opinions in the *AIChE Journal* are those of the contributors, and the American Institute of Chemical Engineers assumes no responsibility for them. Subscription: one year, \$100; special member rate, \$25; additional yearly postage outside U.S.A. \$5 (foreign subscriptions payable in advance). Single copies: \$20. Single copies more than one year old: \$25. Second-class postage paid at New York, N.Y. and additional mailing offices. Copyright 1984 by the American Institute of Chemical Engineers. National headquarters of AIChE is concerned about nondelivery of copies of the *AIChE Journal* and urgently requests subscribers to give prompt notification of any change of address. Sixty days must be allowed for changes to be made in the records.

Postmaster: Please send change of addresses to AIChE Journal, 345 East 47 Street, New York, N.Y. 10017.

on

Crystallization and Minerals Processing

**Nucleation, Growth and Impurity
Effects in Crystallization Process
Engineering**

Mary Anne Farrell Epstein, Editor

Contents: Energetics of Nucleation. Growth of Contact Nuclei of Citric Acid Monohydrate. Undercooling to Nucleation in Cd-Sb Alloys. Size-Dependent Single Crystal Growth Kinetics. The Kinetics of Crystal Growth of Divalent Metal Fluorides. Effect of Impurities on Occlusion Formation During Crystallization from Solution. The Removal of Impurities Through Crystal Aging. Effect of Iron as a Trace Impurity on the Water Softening Process. Identification of Batch Crystallization Control Strategies Using Characteristic Curves. On-Line Particle Counting for Crystallizer Operation Control. Observability and Controllability Considerations in Crystallization Process Design.

(ISBN 0-8169-0226-7 LC 82-11460)

SEND YOUR BOOK ORDERS TO: Publications Sales Dept. J. American Institute of Chemical Engineers, 345 E. 47 St., New York, NY 10017. All orders must be accompanied by check or money order in U.S. dollars. No charge for postage or handling on U.S. orders. All foreign orders, regardless of quantity, must be accompanied by payment in U.S. dollars and must include \$2.00 per book to cover postage and handling. All books will be shipped bookrate. All sales are final.

Reproducing Copies

Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by AIChE for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the \$2.00 per copy fee is paid directly to CCC, 21 Congress St., Salem, MA 01970. This consent does not extend to copying for general distribution, for advertising or promotional purposes, for inclusion in a publication, or for resale. Articles published before 1978 are subject to the same copyright conditions and the fee for each article is \$2.00.
